27yd	Prices include 2 ton of Refuse and 7 Days of Rental

Billing Process: There are 5 components to the billing process: **1.** Haul fee **2.** Disposal fee **3.** Demurrage fee (if applicable) **4.** Non-compliant materials fee (if applicable) **5.** Deposit

- **BASE PRICE** is a flat rate dictated by the size of the drop box and it's delivery location as listed on our price list.
- **DISPOSAL FEE** is the rate per ton of material that exceeds the weight normally included in the drop box. This rate varies dependant upon the type of materials placed in the box and the place of disposal. This rate is established by the waste recovery facilities that we currently use. Call for more information.
- **DEMURRAGE FEE** is an additional fee assessed for holding a drop box longer than the stated number of days in the original contract. The amount stated on our price list is compounded daily.
- **NON-COMPLIANT MATERIALS FEE** is added to your invoice when prohibited items are found in the drop box. All loads are subject to inspection. See "[Prohibited Items](#)" for a list of prohibited materials.
- **DEPOSIT** All fees are deducted from the deposit. If all fees are less than the deposit, a refund check will be issued to the customer. If all fees are greater than the deposit, a bill will be issued for the additional expenses.
